Subject: TF Vector Control- Daily Report

TF Vector Control- Daily Report
Sept 12, 2017: 1230 (CDT)

Current Objective Areas:

7009004

Sprays operations on 11 Sept were conducted over Chambers, Orange, and Jefferson Counties in Branch II. On 12 Sept the objective areas will include Chambers, Jefferson, and beginning work over a large area in Brazoria Co.

- "Spray 07" covered 100,348 acres using 540 gallons of Naled on 11 SEP.
- "Spray 04" covered 98,842 acres using 553 gallons of Naled on 11 SEP.
- 494,563 acres have been sprayed since 09 SEP with Orange County now complete.
- **Chambers, Jefferson and Brazoria Counties** will be sprayed on 12 SEP.
- The **USDA official memorandum** certifying organic farmers was signed on 11 SEP and was pushed to County Officials by TX DSHS.
- There are three counties (Matagorda, Fort Bend and Galveston) that are still not yet committed to Federal spraying, but DSHS estimates that they will opt in shortly and I have explained the importance of finalizing the counties for a final acreage estimate for logistical planning.
- the 910th MASS is expecting a **4th C-130 aircraft and additional crew to arrive on 12 SEP** which will tentatively start flying a third mission each night on 13 SEP.
- the 910th MASS is also analyzing ways to maximize mission aircraft and systems to add to the nightly acreage sprayed.

Attached are:

- 1) MA 32 Vector Control Progress Map for DoD and Contractor Spraying
- 2) Vector Control Schedule
- 3) USDA Memorandum Regarding Organic Farmers Certification Status

Next key times:

- 1) 12 SEP - Additional C-130 and crew tentatively scheduled to arrive at Kelly Field
- 2) 13 SEP - Federal TF Vector Conference Call at 1500 (change in time and frequency)**
- 3) 13 SEP - Additional aircraft tentatively begins flying spraying mission for a total of **3 x C-130 per night**
